

Minnesota Board of Pharmacy

EIGHT HUNDRED AND FIFTY FIRST MEETING

At approximately 9:00 a.m., on January 20, 2016, the Minnesota Board of Pharmacy met in Conference Room A, at the University Park Plaza Building, 2829 University Avenue Southeast, Minneapolis, Minnesota, for the purpose of conducting a general business meeting. Members of the Board that were in attendance were Mr. Stuart Williams, Ms. Laura Schwartzwald, Mr. Rabih Nahas, Dr. Joseph Stanek, Dr. Kurt Henn, Dr. Andrew Behm, Mr. James Bialke, Ms. Samantha Jaworski, and Ms. Mary Phipps. Also in attendance were the Board's Executive Director, Dr. Cody Wiberg; Deputy Director; Dr. Beth Ferguson; Legal Counsels, Mr. Hans Anderson and Mr. Brian Williams; and Board of Pharmacy staff members, Ms. Candice Fleming, Ms. Ame Carlson, Ms. Barb Carter, Ms. Katrina Howard, and Ms. Patricia Eggers.

President Stuart Williams called the meeting to order.

The Board went into closed session to discuss a matter regarding a disciplinary case.

At the conclusion of the closed session, the meeting was reopened to the public.

President Williams congratulated Mr. Stanek on being reappointed to the Board and welcomed Dr. Behm, Mr. Bialke, Ms. Jaworski, and Dr. Phipps to the Board.

The Board next discussed the minutes of the December 16, 2015 business meeting. The minutes were approved as written.

Ms. Schwartzwald moved and Dr. Henn seconded that the items on the Consent Agenda be approved. The motion passed unanimously.

The Consent Agenda for the meeting was as follows:

- Variance Committee Report – Approve
- CE Report – Approve

Mr. Nahas moved and Ms. Schwartzwald seconded that the remainder of the agenda be approved. Director Wiberg and Ms. Fleming requested that a variance for First Choice Pharmacies in Henderson and Gaylord regarding tele-pharmacy to be added to the agenda due. The remainder of the agenda was approved as amended.

The Board next turned its attention to election of the Board's Executive Director. A review of the minutes and audio recording of the December 16, 2015 meeting showed that the Board "designated" Dr. Cody Wiberg to be the Board's Secretary/Executive Director. Minnesota Statutes §151.05 requires that the Secretary be annually elected. To follow proper procedures, the Board needs to elect the Secretary/Executive Director. Ms. Schwartzwald moved and Mr. Nahas seconded that Director Wiberg be elected as the Board's Secretary/Executive Director. The motion passed unanimously.

The first variance and policy review issue to come before the Board was from Ms. Razan Alsibai. Ms. Alsibai is a foreign pharmacy graduate who is asking that the Board allow her to become licensed as a pharmacist in the state of Minnesota without being certified by the Foreign Pharmacy Graduate Examination Commission (FPGEC). She cannot meet the FPGEC's requirement that she be licensed in another country because she is a refugee from Syria. Ms. Alsibai and her brother-in-law were present at the meeting. Ms. Schwartzwald moved and Mr. Bialke seconded that the Board approve the variance request on condition that she has her preceptor submit a report concerning her performance to the Board, on a quarterly basis. The motion was amended to also state that Ms. Alsibai will not need a social security number to register as an intern. The motion passed unanimously.

The next variance and policy review issue to come before the Board was from Mr. Justin Hsung. Mr. Hsung is requesting that the Board allow him to take the Multistate Pharmacy Jurisprudence Examination for the fourth time. After some discussion, Dr. Behm moved and Dr. Henn seconded that the variance request be approved. The motion passed unanimously.

The next variance and policy review issue to come before the Board was for four locations of the Colonial Management Group. The Colonial Management Group is requesting to operate opioid treatment programs as pharmacies. The four facilities are Dakota Treatment Center, Rochester Metro Treatment Center, St. Cloud Metro Treatment Center, and St. Paul Metro Treatment Center. Present at the meeting and representing Colonial was Ms. Teresa Kossakowski. After some discussion, Ms. Schwartzwald moved and Mr. Behm seconded that the variance request be granted on condition that the Policy & Procedures that Colonial submitted are followed. The motion passed unanimously.

The next variance and policy review issues to come before the Board were from Pharmerica in Fridley. They are requesting a Policy review of a RxNow electronic e-kit for first dose and emergency medications, a variance to allow the use of RxNow automation in place of traditional emergency kits, and a variance to allow a greater number of permitted emergency medications in the e-kit. After some discussion, Dr. Henn moved and Mr. Nahas seconded that the variance request be denied. The motion passed unanimously.

Dr. Stanek excused himself from the meeting.

The next variance and policy review issues to come before the Board were from Mayo Clinic Methodist Hospital, Rochester; Fairview Southdale, Edina; and Hennepin County Medical Center, Minneapolis. The issues involve Tech-Check-Tech variances recently submitted by these hospitals. Fairview Southdale had a variance approved by the Board at the December 15, 2015 meeting. That variance request was approved until this meeting so that concerns that were raised during Variance and Policy Review Committee discussions of Tech-Check-Tech variances could be considered. The

concerns relate to the use of Tech-Check-Tech in patient care areas where barcode medication administration and patient profiles are not utilized. Mayo Clinic submitted documents related to this issue. Present at the meeting were Ms. Karen Bergrud, Pharmacist-in-charge of Mayo Rochester Methodist, and Dr. Carl Woetzel, Pharmacist-in-charge of Fairview Southdale. Director Wiberg recommended that these variance requests be approved, with conditions, until the Board's June 1, 2016 Board meeting so that staff may have time to research this issue and make recommendations to the Board. After much discussion the Board deemed that they would handle each facility separately.

- For Mayo Clinic Rochester Methodist Hospital, Mr. Nahas moved and Mr. Behm seconded that the variances be approved, with no conditions, until the Board's June, 2016 Board meeting so that staff will have time to research this issue and make recommendations to the Board. The motion passed unanimously.
- For Fairview Southdale, Edina, Mr. Bialke moved and Dr. Henn seconded that the December variance be approved and extended until the June, 2016 Board meeting so that staff will have time to research this issue and make recommendations to the Board. The motion passed unanimously.
- For Hennepin County Medical Center, Ms. Schwartzwald moved and Dr. Behm seconded that the variance be approved with the same conditions as Fairview so that staff will have time to research this issue and make recommendations to the Board. The motion passed unanimously.

The next variance and policy review issues to come before the Board were for various Fairview pharmacies. These variance requests and policy reviews came before the Board so that Dr. Stanek could recuse himself from voting on them. They are:

- Fairview University Masonic Pharmacy in Minneapolis. A variance to allow certain prescription and compounding records that are less than two years old to be stored at an off-site facility *because the pharmacy will be closing*. The Committee recommends approval for two years only because the pharmacy will be closing
- Fairview University Clinic Pharmacy in Minneapolis.
 - A variance to allow the separation of the prescription dispensing process including verification, drug utilization review (DUR) and/or certification for new or refillable prescriptions by more than one pharmacist between this facility and *Fairview Infusion Services* for certain CSP prescriptions. The Committee recommends an approval for one year on condition that the compounding record is attached to the original prescription and that the pharmacy works towards a computer system interface between pharmacies.
 - A variance to allow the separation of the prescription dispensing process including verification, drug utilization review (DUR) and/or certification for new or refillable prescriptions by more than one pharmacist between this facility, *Fairview University Discharge*

- Pharmacy, and Fairview Infusion Services* for take-home oncology medications. The Committee recommends approval for one year.
- A variance to allow the pharmacy to omit "Fairview Infusion Services" from the label of any prescription that has been processed through central fill or central service by Fairview Infusion Service. The Committee recommends approval for one year but recommends that the pharmacy works towards a more transparent notification to the patient.
 - A policy review of central services between Fairview Infusion Services, Fairview University Clinic Pharmacy, and Fairview University Discharge Pharmacy. The Committee recommends approval.
 - A policy review of central filling by Fairview Infusion Services for Fairview University Clinic Pharmacy for certain compounded sterile prescriptions. The Committee recommends approval.
 - Fairview Infusion Services in Minneapolis.
 - A variance to allow certain prescription and compounding records that are less than two years old to be stored at an off-site facility. The Committee recommends denial.
 - A variance to allow the separation of the prescription dispensing process including verification, drug utilization review (DUR) and/or certification for new or refillable prescriptions by more than one pharmacist between this facility and *Fairview University Clinic Pharmacy* for certain CSP prescriptions. The Committee recommends approval for one year on condition that the compounding record is attached to the original prescription and that you work towards a computer system interface between pharmacies.
 - A variance to allow the separation of the prescription dispensing process including verification, drug utilization review (DUR) and/or certification for new or refillable prescriptions by more than one pharmacist between this facility and *Fairview Home Infusion* for home infusion oncology patients. The Committee recommends approval for one year.
 - A variance to allow the separation of the prescription dispensing process including verification, drug utilization review (DUR) and/or certification for new or refillable prescriptions by more than one pharmacist between this facility, *Fairview University Clinic Pharmacy*, and *Fairview University Discharge Pharmacy* for take-home oncology medications. The Committee recommends approval for one year.
 - A variance to allow the pharmacy to omit "Fairview Infusion Services" from the label of any prescription that has been processed through central fill or central service by Fairview Infusion Service. The Committee recommends approval for one year but recommends that the pharmacy works towards a more transparent notification to the patient.

- A policy review of central services between Fairview Infusion Services, Fairview University Clinic Pharmacy, and Fairview University Discharge Pharmacy. The Committee recommends approval.
- A policy review of central filling by Fairview Infusion Services for Fairview Home Infusion oncology patients. Committee recommends approval.
- A policy review of central filling by Fairview Infusion Services for Fairview University Clinic Pharmacy for certain compounded sterile prescriptions. The Committee recommends approval.
- ◆ Fairview Home Infusion in Minneapolis
 - A variance to allow the separation of the prescription dispensing process including verification, drug utilization review (DUR) and/or certification for new or refillable prescriptions by more than one pharmacist between this facility and Fairview Infusion Services for home infusion oncology patients. The Committee recommends approval on condition that the pharmacy works towards a computer system interface.
 - A policy review of central filling by Fairview Infusion Services for Fairview Home Infusion oncology patients. The Committee recommends approval.
- ◆ Fairview University Discharge Pharmacy in Minneapolis.
 - A variance to allow the pharmacy to omit "Fairview Infusion Services" from the label of any prescription that has been processed through central fill or central service by *Fairview Infusion Service*. The Committee recommends approval for one year but recommends that the pharmacy works towards a more transparent notification to the patient.
 - A variance to allow the separation of the prescription dispensing process including verification, drug utilization review (DUR) and/or certification for new or refillable prescriptions by more than one pharmacist between this facility, *Fairview University Clinic Pharmacy, and Fairview Infusion Services* for take-home oncology medications. The Committee recommends approval for one year.
 - A policy review of central services between Fairview Infusion Services, Fairview University Clinic Pharmacy, and Fairview University Discharge Pharmacy. The Committee recommends approval.

Mr. Bialke moved and Dr. Behm seconded to approve the recommendations of the VPRC for these Fairview variance requests and policy reviews. The motion passed unanimously.

Mr. Stanek returned to the meeting and Mr. Nahas excused himself from the meeting.

- ◆ Mercy Hospital Pharmacy in Coon Rapids.
 - A policy review of Allina Health Home Infusion Therapy Services

- involving central fill services from ProHealth Pharmacy Solutions. The Committee recommends approval.
- A variance to allow the separation of the prescription dispensing process including verification, drug utilization review (DUR) and/or certification for new or refillable prescriptions, by more than one pharmacist on site or at the ProHealth Pharmacy Solutions. The Committee recommends approval for one year on condition that within 30 days, the pharmacy resubmits policies and procedures that explain compliance with Minnesota's quality assurance double check per MN Rule 6800.3950, Subp. 4.
- ♦ ProHealth Pharmacy Solutions in Maitland, Florida.
 - This is a policy review of Allina Health Home Infusion Therapy Services involving central fill services from ProHealth Pharmacy Solutions. The Committee recommends approval.
 - A variance to allow the separation of the prescription dispensing process including verification, drug utilization review (DUR) and/or certification for new or refillable prescriptions, by more than one pharmacist on site or at Mercy Hospital Pharmacy located in Coon Rapids, MN. The Committee recommends approval for one year on condition that within 30 days, the pharmacy resubmits policies and procedures that explain compliance with Minnesota's quality assurance double check per MN Rule 6800.3950, Subp. 4.

Mr. Bialke moved and Dr. Henn seconded to approve the recommendations of the VPRC for these Mercy and ProHealth variance requests and policy reviews. The motion passed unanimously.

Ms. Carter next gave an update on the Prescription Monitoring Program (PMP), PMP legislation, and the expansion of the criteria used for unsolicited reporting. Dr. Howard then gave the Board additional information on unsolicited reporting. Director Wiberg requested that the Board interpret language found in Minn. Stats. §152.126, subd. 6(i), in a manner that allows staff to review the data and establish the criteria for the review of the data, as required in this subdivision. The consensus of the Board was to adopt this interpretation.

Dr. Howard next gave the Board more information concerning a *Joint Statement on the Impact of Health Conditions and Medication Use on the Operation of Vehicles* that was developed by the Boards of Pharmacy, Nursing and Medical Practice. Mr. Nahas moved and Mr. Bialke seconded that this statement be approved after some minor "polishing". The motion passed unanimously.

Director Wiberg next provided information concerning the Minnesota Society of Health-System Pharmacists (MSHP) "Tech-Check-Tech Program" (TCT) packet and the history of the Board's handling of TCT issues. In 2003, the Minnesota Society of Health-System Pharmacists (MSHP) worked with the Board to update the MSHP TCT guidance

document to include automated distribution machines. The Board approved the guidance in 2003. Director Wiberg provided information concerning legal considerations for the development of guidance documents approved by the Board. After reviewing MSHP's guidance document, Director Wiberg recommended that the Board withdraw its approval because the MSHP document could be considered unpromulgated rule-making. Mr. Nahas moved and Dr. Behm seconded that Director Wiberg be directed to request MSHP to remove the Board's approval from this document. Mr. Carl Woetzel asked questions regarding this decision. Director Wiberg stated that he will contact MSHP regarding the Board's decision. Tamara Bezdicek, president elect of MSHP, asked if MSHP should revise this document and Director Wiberg informed her that the Board cannot direct MSHP to do so, but would ask MSHP to revise the document. The motion passed unanimously.

Director Wiberg next gave the Board an update on the work condition rules. No action was taken.

There being no further business requiring action by the Board, President Williams adjourned the meeting at approximately 12:43 PM.

PRESIDENT

EXECUTIVE DIRECTOR

**Variance Committee Report of January 6, 2016
for Board Meeting of January 20, 2016
9:00 AM in Conference Room C**
